

Calibration Service for Vacuum Gauges

INFICON offers calibration services for vacuum gauges. DAkks (Deutsche Akkreditierungsstelle; according to DIN EN ISO/IEC 17025:2005) calibration certificate or factory calibration certificate can be issued. All issued inspection documents are in compliance with the European Standard EN 10204.

BENEFITS

- Known deviation to calibration standards
- Controlled quality over time

FEATURES

- **DAkks CALIBRATION**

The German Calibration Service (DAkks) ensures traceability of industrial measurements and testing to national calibration standards. It is run jointly by the Federal Institution for Physics and Technology (PTB), the Industry, the federal Minister for Economics and the Western European Metrology Club (WEMC). The transfer standards employed in the DK calibration facility are checked regularly (recalibrated) by the PTB.

- **FACTORY CALIBRATION**

Factory calibrations traced back to DAkks transfer standards.

CDG gauges are calibrated on a special tool with traceability to national standards at PTB.

Thus traceability to national standards is ensured in both cases.

- **OTHER CALIBRATIONS**

NIST Calibration available upon request. Call for availability and pricing.

ORDER INFORMATION

Calibration Service for	Calibration Range [mbar], [Torr]	DAKks Calibration ¹⁾	Factory Calibration ¹⁾
Pirani, Pirani Combination Gauges	1×10^{-3} ... 30	398-900	398-910
Capacitance Diaphragm Gauges	1×10^{-3} ... 1000	-	398-913
Capacitance Diaphragm Gauges (gauges with measurement cable to controller)	1×10^{-3} ... 1000	-	398-914
Bayard Alpert, Cold Cathode, High Pressure and Combination Gauges	1×10^{-6} ... 30	398-902	-
Bayard Alpert, Cold Cathode, High Pressure and Combination Gauges	5×10^{-7} ... 1000	-	398-912

¹⁾ Pressure media: Nitrogen
